

How to Use Zoom using an iPad

Install the Zoom App on your iPad

Open the App.

Join a Meeting in Zoom and you will join a small group of people.

NB You don't need to Sign up or Sign in - just tap the Join a meeting icon

Either double click the meeting link in the e mail from Sarah OR

Enter the Meeting ID and PW

Once you have joined the meeting:

At the top right of the screen there is a bar with a number of icons - a red icon of a microphone, and a green icon of a camera.

Make sure you have 'unmuted' yourself, and that you have enabled the camera icon.

If you don't do this then you will not be able to be seen, nor heard!

Also on the top right is a list of participants so you can see who has also joined us.

On the right of the screen where it says switch to active speaker you can bring the person speaking into full screen. And just touch it again to return to the original screen.

1. Open the Zoom mobile app. If you have not downloaded the Zoom mobile app yet, you can download it from the App Store.
2. Join a meeting using one of these methods:
 - Tap **Join a Meeting** if you want to join without signing in.
